Professional Summary

Software Engineer and Full Stack Developer with hands-on experience in building web and mobile applications using React.js, Next.js, and Flutter. Successfully published a live college bus tracking app on the Google Play Store and won 4 national-level hackathons. Strong foundation in JavaScript, Python, REST APIs, and SQL/NoSQL databases, focused on building clean, reliable software that solves real-world problems.

Technical Skills

Programming Languages: JavaScript, Dart, Python, SQL, C
Mobile Development: Flutter (Android & iOS), Provider, Riverpod, State Management
Web & Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, RESTful APIs, WebSockets
Backend, Cloud & DB: Node.js, FastAPI, Firebase (Auth/Firestore), Supabase, PostgreSQL, MySQL, Postman
Developer Tools: Git, GitHub, Vercel, CI/CD, Antigravity IDE, Cursor

Work Experience

Full Stack Developer Intern *Jun 2026 – Jul 2026*
Zapple Digital *Chennai, Tamil Nadu*

- Developed and maintained responsive web applications using **React.js** and **Node.js** for live client projects.
- Built and integrated **REST APIs** and database queries, improving API response speed by **30%**.
- Fixed UI and backend bugs reported by clients, and participated in daily stand-ups and peer code reviews.
- Worked with senior developers to create reusable UI components and manage code using **Git**.

Web Development Intern *Jul 2025 – Aug 2025*
Corizo *Remote*

- Built clean, responsive web pages using **React.js**, **HTML**, and **CSS** that work smoothly on all devices.
- Connected front-end pages with backend **REST APIs** and databases, improving page loading speed by **25%**.
- Added client-side form validations and error handling, completing the internship with distinction (Credential: **CRZ111525**).

Fullstack Development Intern *Jan 2025 – Feb 2025*
SAN Technovation *Perundurai, Erode, Tamil Nadu*

- Developed mobile-responsive web pages and interactive screens using **HTML5**, **CSS3**, and **JavaScript**.
- Assisted the team in database operations, writing CRUD APIs, and building reusable components to speed up development.
- Worked with senior engineers to test web performance, fix UI bugs, and follow clean **Git** workflows.

Technical Projects

MPNMJEC Bus Tracking Platform *(Google Play Store)* *Flutter, Dart, Node.js, WebSockets, Supabase*

- Developed and published a live college bus tracking mobile app on the **Google Play Store** for students and drivers.
- Implemented real-time GPS location tracking using **WebSockets** and offline caching for smooth tracking on low networks.
- Created a web-based admin dashboard in **React** to manage 25+ bus routes, stops, and live arrival timings.

QuizForge – AI-Powered Exam & Anti-Cheating Platform *(quizforge-live.vercel.app)* *React, JavaScript, Groq LPU AI, Firebase*

- Built an AI quiz generator web app that turns study notes into 5 to 50 questions in just **5 to 15 seconds**.
- Implemented anti-cheating features like mandatory full-screen mode, tab-switch warnings, and auto-submission on 3 strikes.
- Created instant test access for students without signup, a question editor for teachers, and one-click CSV result download.

Bubbleworks POS – Cloud Laundry & Dry Cleaning System *(bubbleworkspos-live.vercel.app) React 18, JavaScript, Tailwind, Firebase*

- Developed a complete cloud billing and order management software for commercial laundry and dry-cleaning shops.
- Added quick counter billing with **80mm thermal receipt printing**, WhatsApp bill sharing, and daily sales reports in Excel and PDF.
- Enabled offline billing support using **Firebase** so billing works without interruption during internet downtime.

Achievements & Competitions

- **1st Prize Winner** — AI Nexus National Hackathon (CogentAI & WTCDC, Jan 2026): Secured 1st place building a full-stack platform.
- **1st Runner-Up** — HACKFEST 2026 (Gojan School of Tech, Jan 2026): Placed 2nd out of 50+ engineering teams in a 24-hr sprint.
- **Best Innovation Award** — HACK FUSION 1.0 (IEEE & Jeppiaar Institute, Feb 2026): Recognized for impactful systems design.
- **3rd Prize Winner** — 24-Hour Makeathon (Nandha Engineering College, Feb 2026): Awarded 3rd place in rapid hardware/software prototyping.

Education

M.P. Nachimuthu M. Jaganathan Engineering College (MPNMJEC) *Erode, Tamil Nadu*
B.E. Electronics and Communication Engineering | ***CGPA: 7.2 / 10.0*** *2023 – 2027*

Railway Colony Government Higher Secondary School *Erode, Tamil Nadu*
Higher Secondary Certificate (HSC – 12th Grade) | ***Score: 79.5%*** *2023*
